

Pushkar Shirish Dandekar

Boston, MA | (857) 334-8759 | dandekar.p@northeastern.edu | [LinkedIn](#) | [GitHub](#)

Data Engineer with 3+ years of experience building scalable data models and pipelines, optimizing analytics workflows, and delivering actionable insights using Python, SQL, dbt, AWS, and BI tools

EXPERIENCE

Data Analyst, KGS Technologies | Atlanta, GA, USA

Feb 2025 - currently

- Automated business-critical reporting processes, **reducing manual effort by 40%** and enabling data-driven decisions through interactive BI dashboards and advanced SQL queries

Data Analyst, Match4Action Crowd Doing | Boston, MA, USA

Jan 2024 – Jan 2025

- Devised an end-to-end ETL pipeline in **AWS** to ingest and transform 20 GB of raw manufacturing data from external sources like flatfiles, APIs and JSON to build data lake in Amazon S3
- Developed Databricks ML pipelines improving data accessibility, leading to 20% faster insights for product development

Data Engineer, McKinsey & Company | Boston, MA, USA

Jan 2023 - Aug 2023

- Architected self-serve analytical dashboard using **Python, Snowflake** for Economics Intelligence team identifying trade trends and anomalies across **10+** databases to aide strategic decision-making
- Created 10+ data models by integrating wide variety of data sources including, API endpoints into Snowflake data warehouse to build targeted business strategies for various teams
- Transitioned existing Alteryx workflows to KNIME to reduce licensing costs and improve scalability, ensuring seamless data processing without disrupting business operations
- Formulated complex SQL queries to analyze and rank products by international and domestic trade volumes, enabling data-driven market entry strategies that contributed to a **20% increase in successful product launches**

Graduate Teaching Assistant, Northeastern University | Boston, MA, USA

May 2022 - Dec 2023

- Innovated and administered 15 high-impact assessments, covering python programming, data cleaning, preparation, restructuring, and best practices for business intelligence and statistical methods – t-test, Chi-squared, p-value

Data Engineer, JioPlatforms Pvt. Ltd – Reliance Industries | Mumbai, India

Aug 2018 - Aug 2021

- Architected data warehouse centralizing historical customer data, behavioral data, and other KPIs from 5 systems into Amazon Redshift using Airflow DAGs. **Reduced analytics cycle time by 40%**
- Migrated Tableau report extracts to optimized SparkSQL queries on Amazon EMR, reducing weekly financial reporting refresh time from 4 hours to 5 minutes and **saving \$75K per year in data analyst costs**
- Leveraged PowerBI to build a customer 360 dashboard integrating customer feedback, purchase patterns and support history, enabling personalized marketing campaigns that **improved conversion rates by 20%**
- Automated large volume of data integration with 30+ Alteryx ETL data pipelines, accelerating weekly, monthly, and quarterly project reporting, **slashing reporting time by 98%** for multiple departments
- Built interactive Power BI dashboards for support teams, integrating Datadog API data to monitor CPU and memory utilization, **improving incident response time and system reliability**
- Collaborated closely with product owners, data analysts, and subject matter experts to conduct code reviews, ensuring alignment between data engineering solutions and software engineering best practices

EDUCATION

Northeastern University | Master of Science, Information Systems | Boston, USA

Sep2021 - Dec 2023

University of Mumbai | Bachelor of Engineering, Information Technology | Mumbai, India

Jul 2014 - Jun 2018

TECHNICAL SKILLS

Languages:	SQL, Python, C, Java, shell scripting, Linux, Jira, Git, Unix scripting
DB and Frameworks:	MSSQL, NoSQL, MongoDB, Cassandra, DynamoDB, Hadoop, Hive, Airflow, Spark/PySpark, dbt
ETL/BI Tools:	Talend, Alteryx, DOMO, SAP Data Services, Power BI, Tableau, Excel, Looker
Cloud Technologies:	AWS (S3, IAM, EC2, Redshift, Glue, Quicksight), GCP (GCS, BigQuery, Cloud Storage), Azure, Oracle
Certifications:	AWS Cloud Practitioner, Snowflake – SnowPro Core Certification*
